# Tying a square mat or coaster

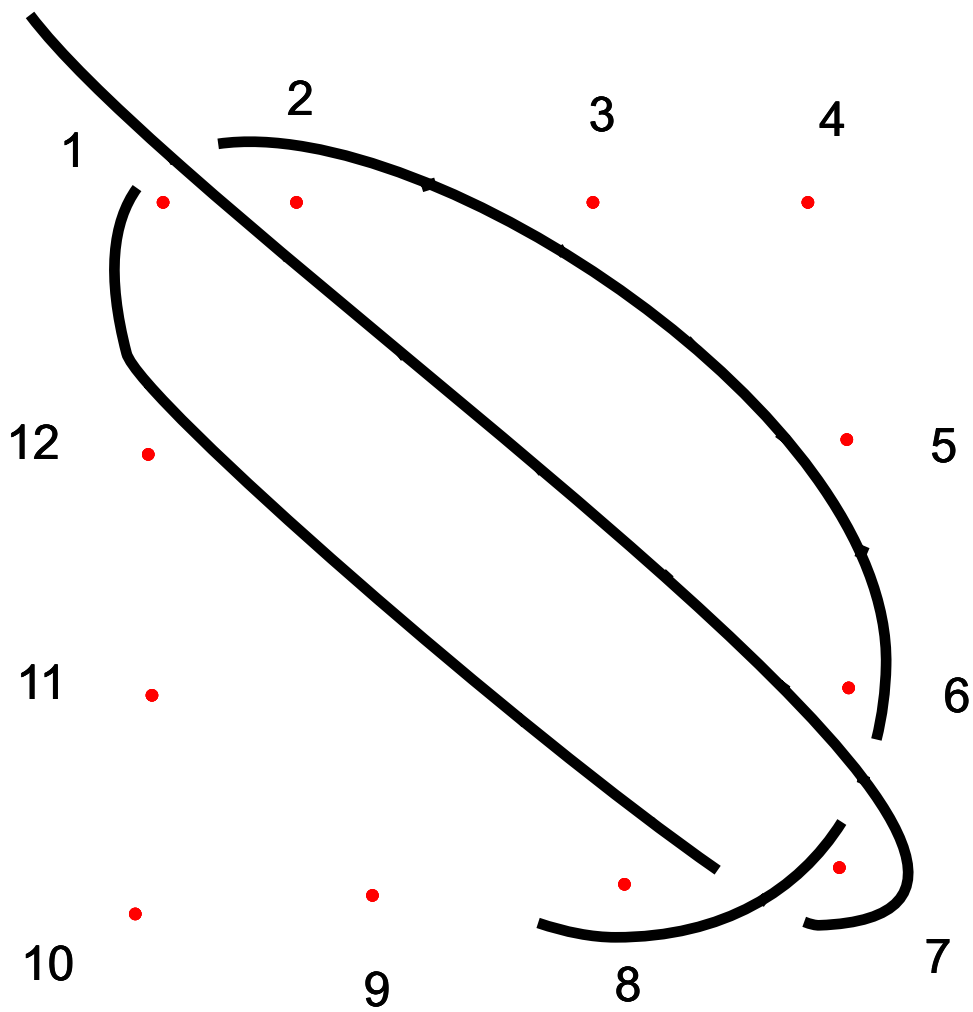

Set up a grid of 12 pins,  
then follow the instructions ...  
Clockwise -  
1 (rhs) to 7

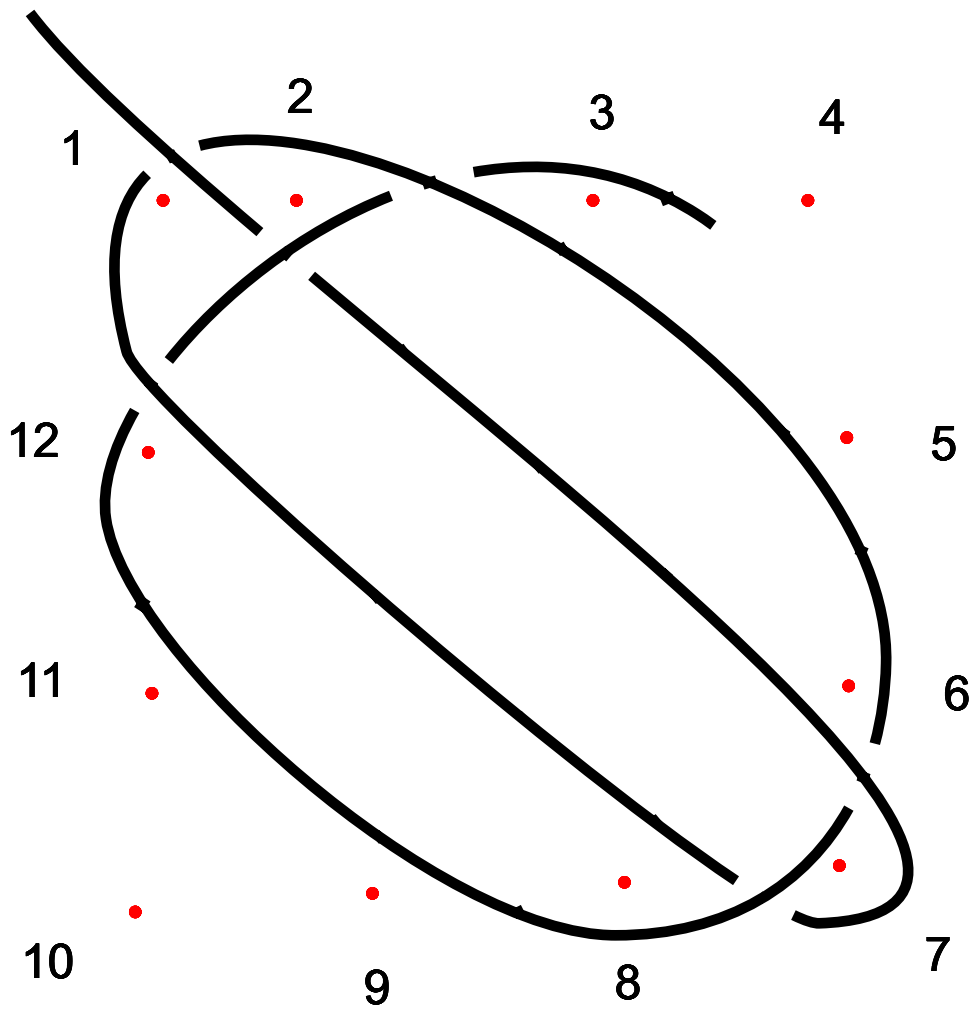

Clockwise -  
7 to 1, under to 2

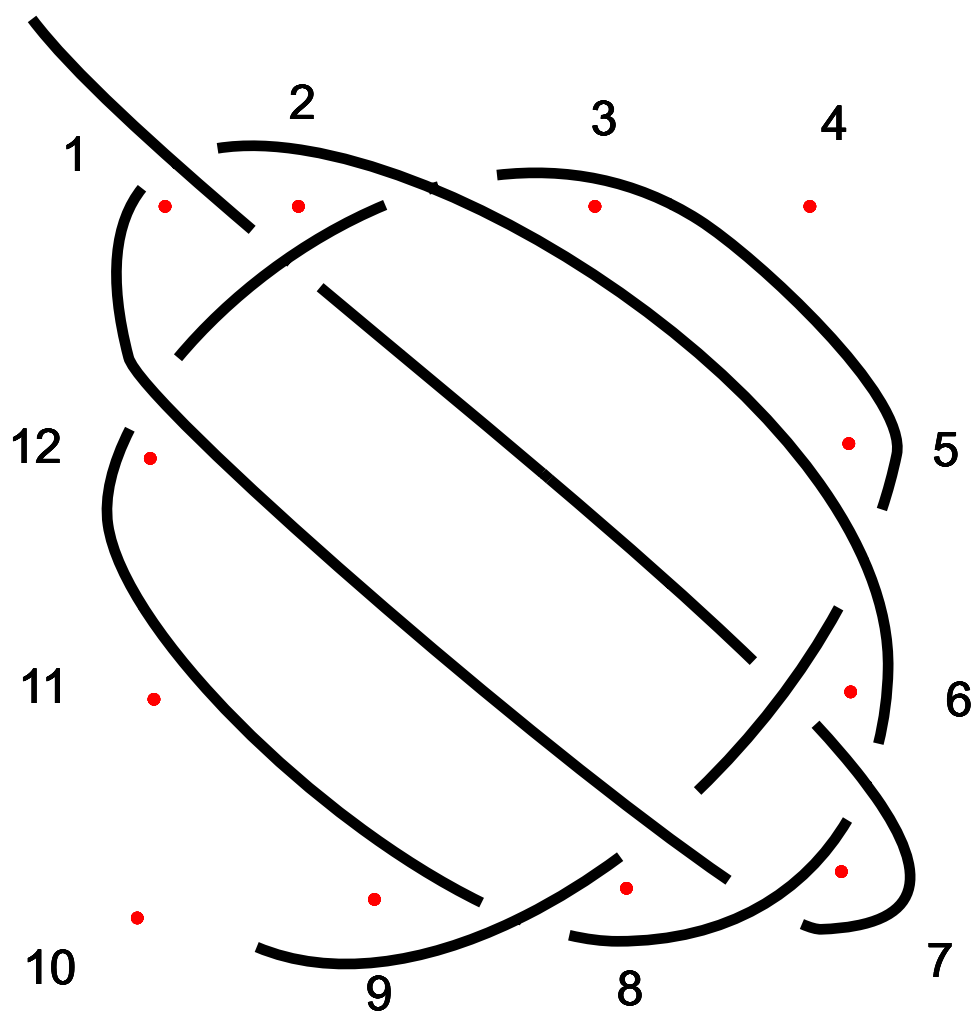

Clockwise -  
2 to 6 , under over to  
8

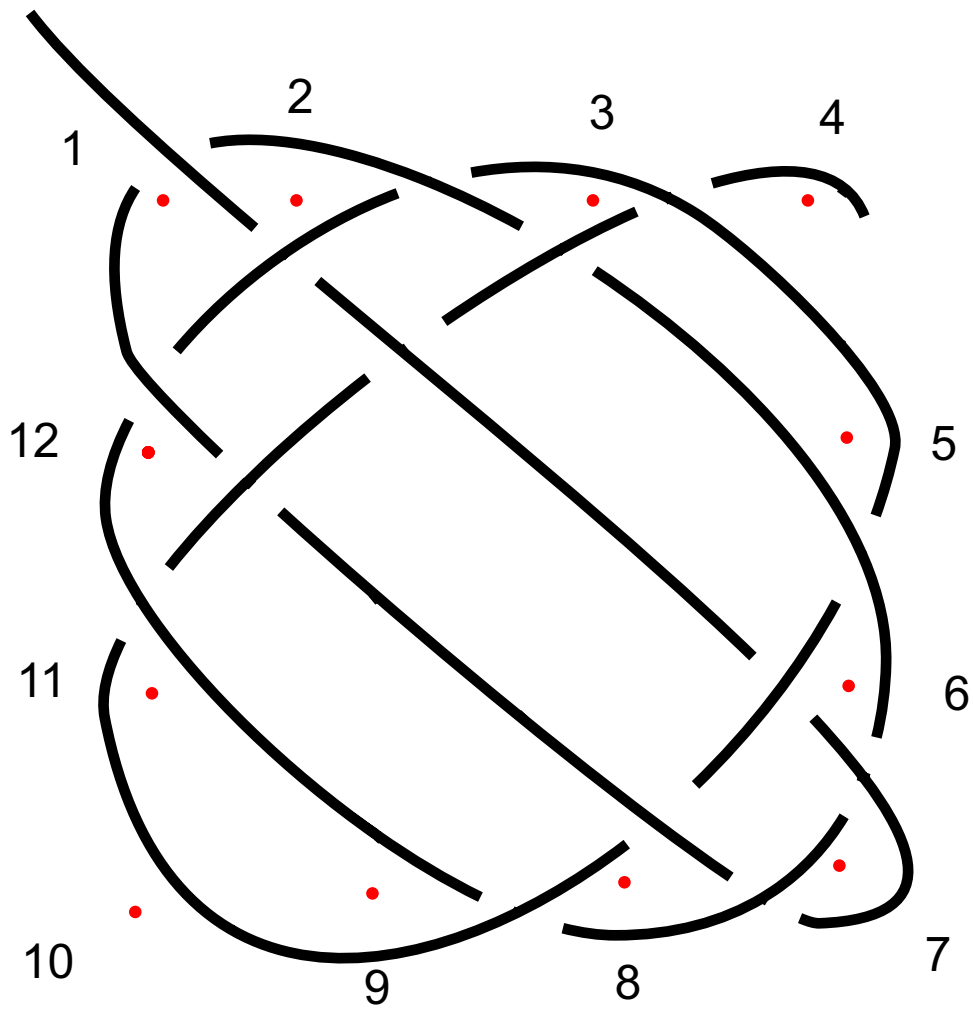

Clockwise -  
8 to 12, under  
over under to 3

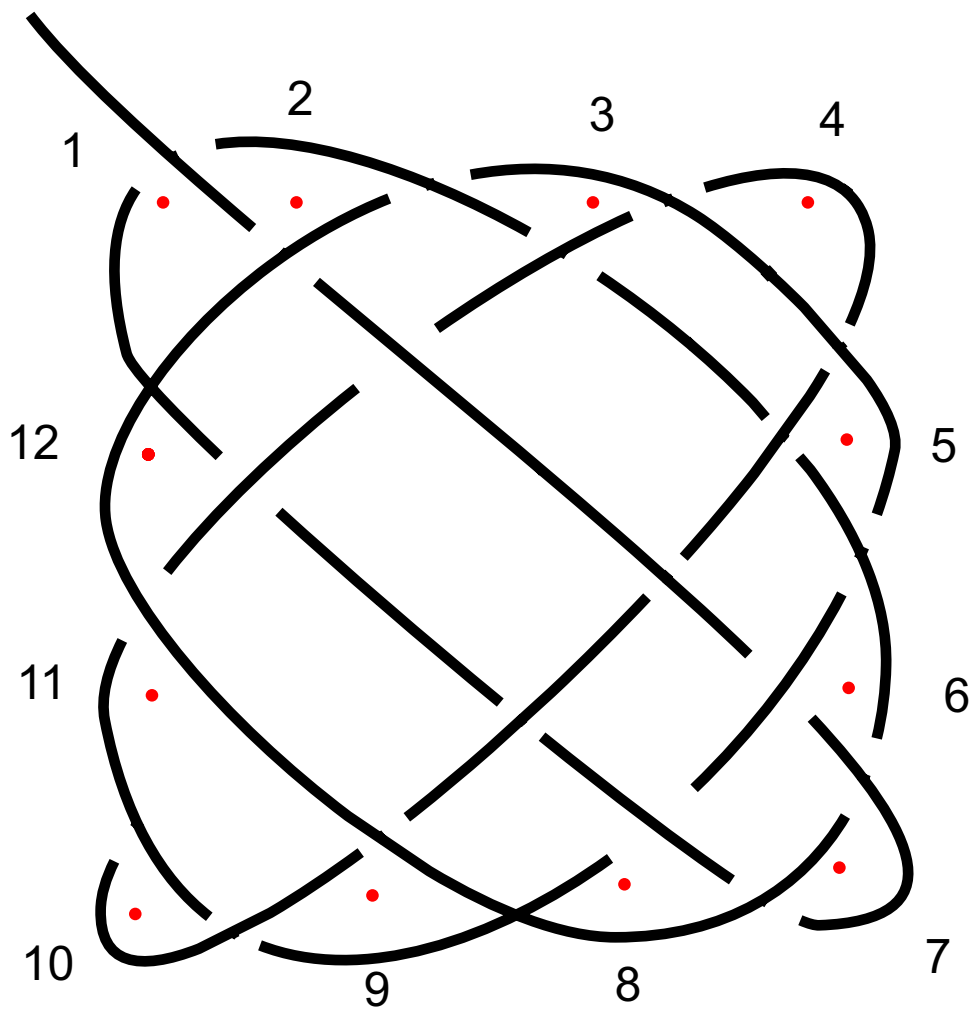

Clockwise -  
3 to 5, under  
over under over  
to 9

Clockwise -  
9 to 11, under over  
under over under to 4

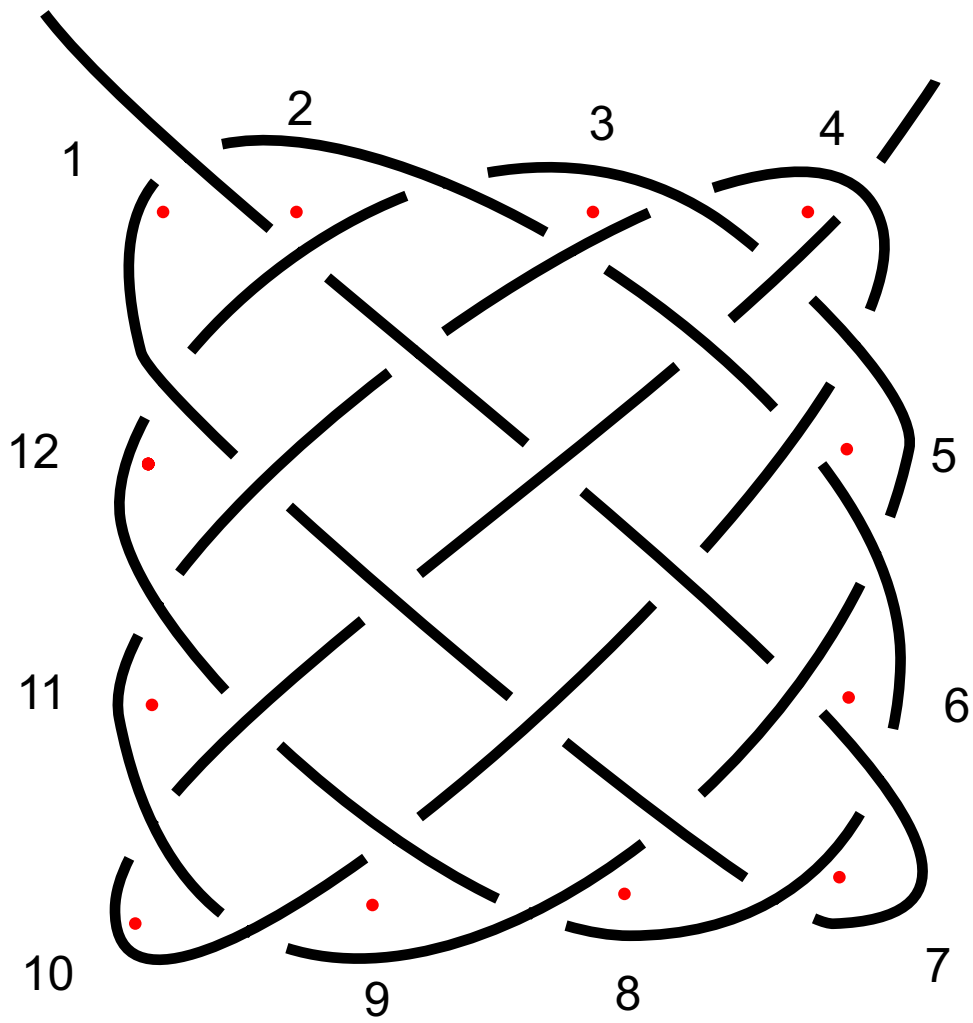

Clockwise -  
4 under over under over  
under over to 10

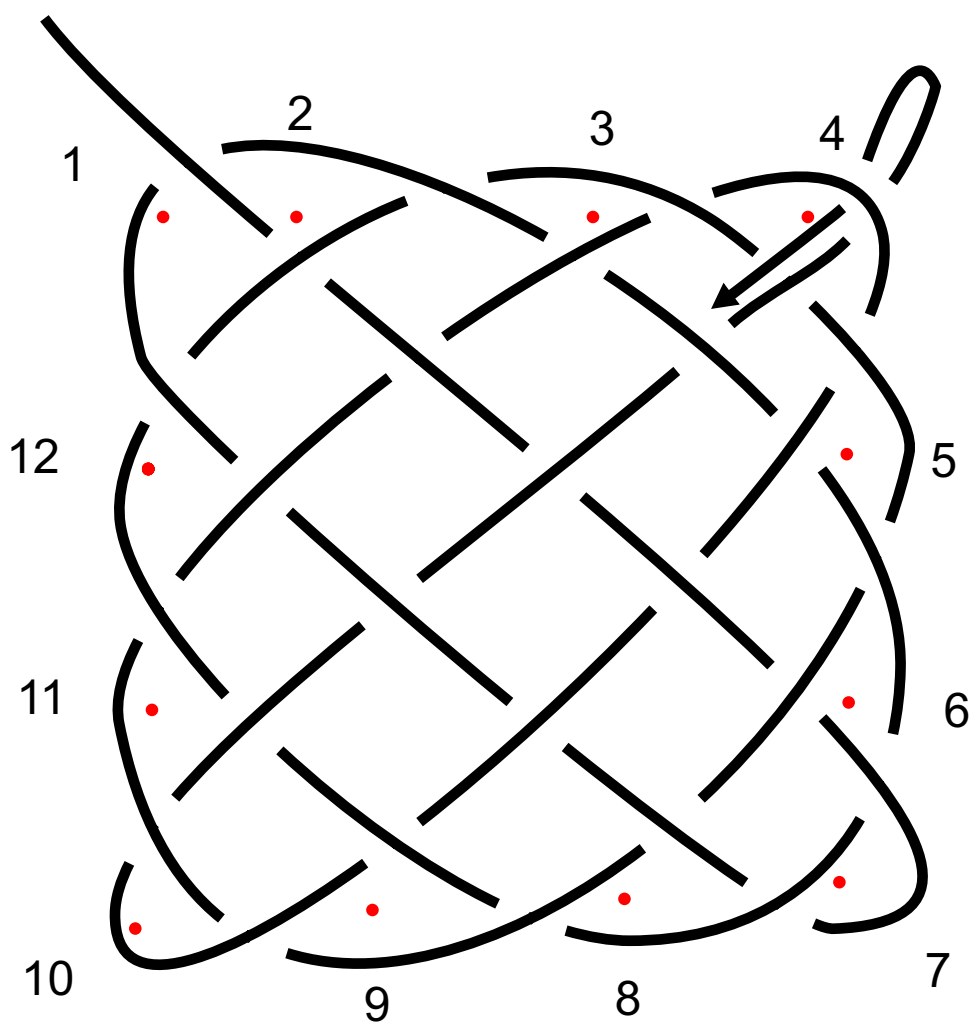

10 under over under  
over under over under  
to 4 (rhs)

Now double up, following the leads through (you could use a separate cord if you wish). Remove the pins at a convenient point, maybe even before doubling.

When finished doubling (or trebling), tighten the mat up gradually, being careful not to lose the “ends” at pins 1 and 4 - these ends can be cut to the edge of the mat when you are done.
